Re: Request to Rezone Resource Development District to Include CD5 Development Project

Dear Mr. Brower:

In 2004, the North Slope Borough Assembly amended the Official Zoning Map by rezoning parts of ConocoPhillips Alaska, Inc.'s (CPAI) Alpine Satellite Development Project, including CD5, from Conservation District to Resource Development District (NSB Ordinance 75-6-46). CPAI is now moving forward with the project with a revised location due to consultations with and suggestions from the Village of Nuiqsut, the Kuukpik Corporation, and the North Slope Borough.

CPAI hereby requests to include the new CD5 Development Project location in the Resource Development District. Attached you will find the Project Description and location figures.

If you have questions or need further information, please contact me at (907) 265-6417 or bruce.st.pierre@conocophillips.com. Thank you.

Sincerely,

Bruce St. Pierre
Sr. Environmental Coordinator
