

Coming later this year: iLogistics GO App!

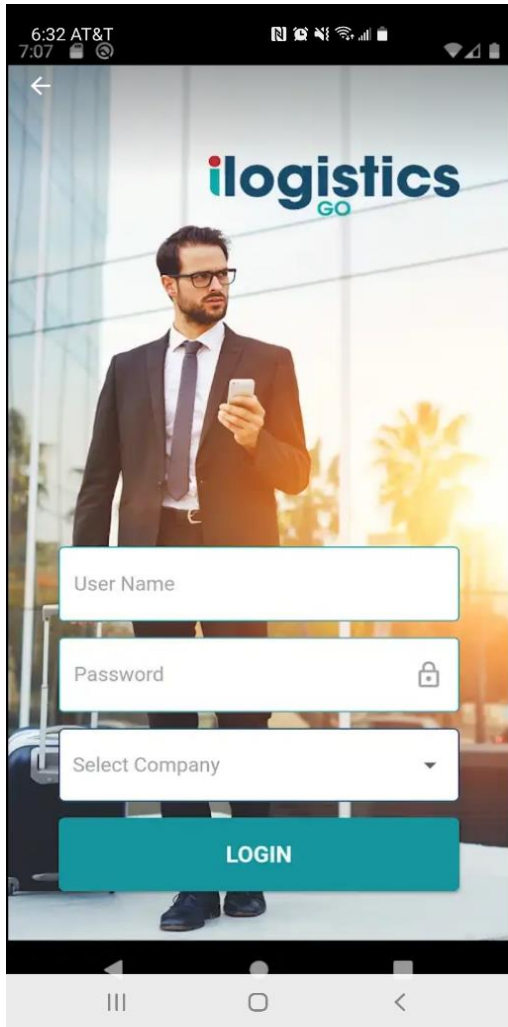

The upgrade of the Aviation travel reservation system to a cloud version will bring new and exciting features for travelers, including a mobile app that will allow you to:

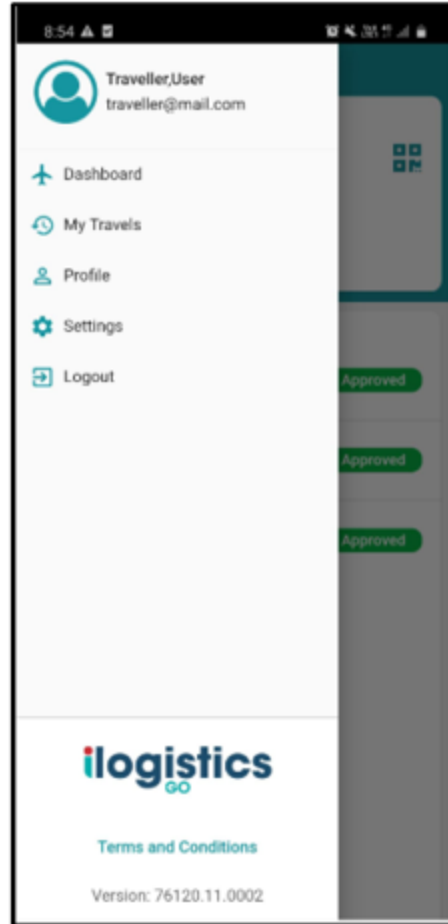

- View future reservations (flight & camp)
- View camp for current reservation
- Check-in for flight within 24 hours of boarding
- Display boarding pass for a checked-in flight
- View previous reservations
- Update and manage your mobile pin and password
- Get alerts regarding travel status
- Digital Boarding Pass

In addition, a web-based check-in page and passenger portal will be available with many of the same features for those without a mobile device.

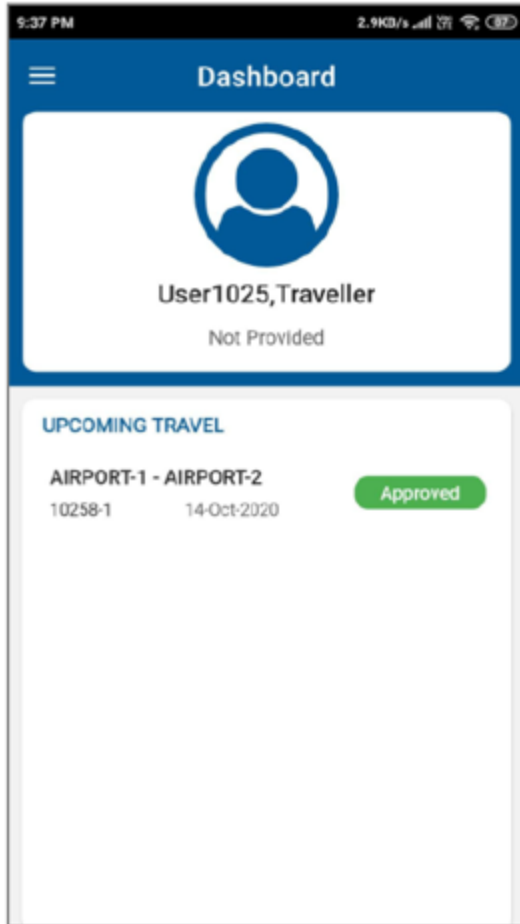

Please note: ConocoPhillips Aviation passengers will not be able to log into the App until later this year. Stay tuned for more details and launch date.

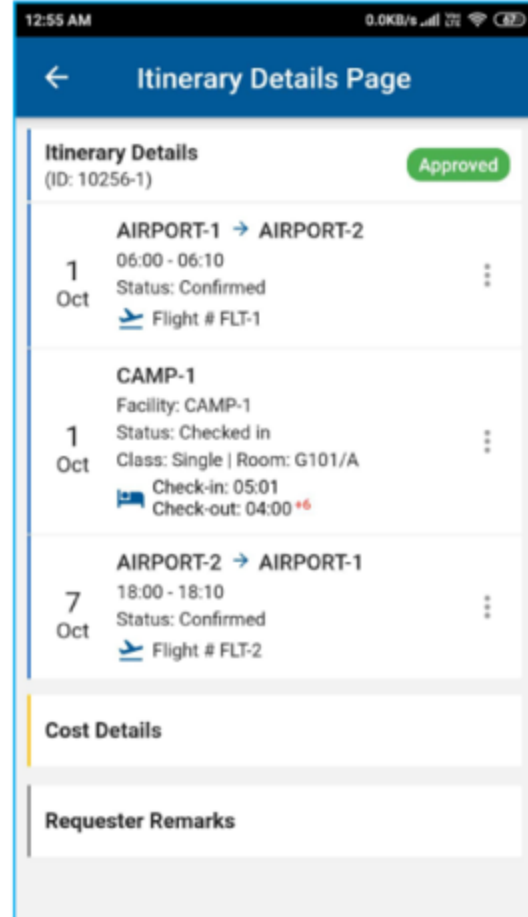

iLogistics GO Home Screen

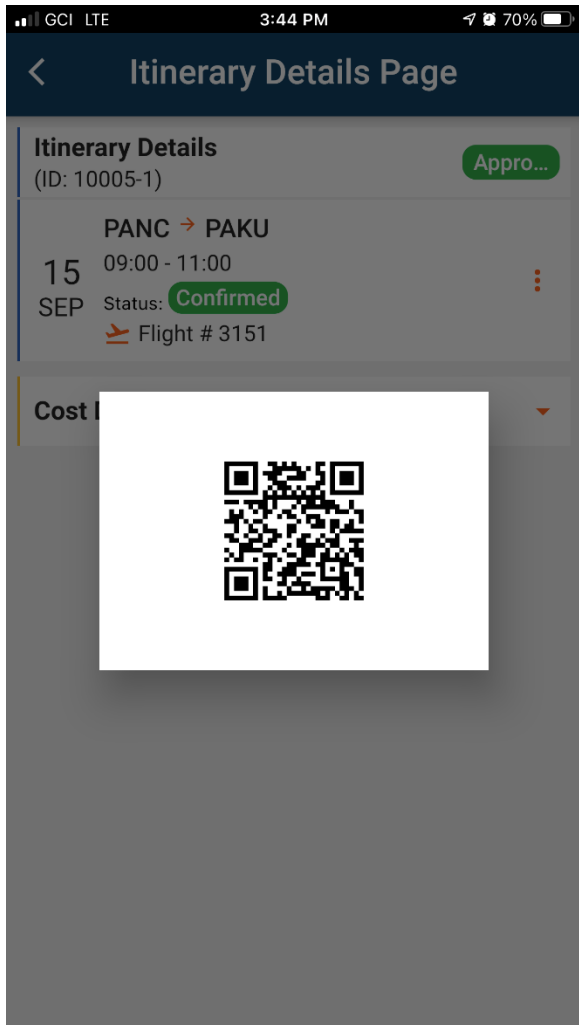

Navigation Pane- Displays passenger profile and Menu options.

User Dashboard Screen-
Displays passenger profile
and upcoming travel details.

Itinerary Details Page -
Displays passenger's current
flight and camp information.

Digital Boarding Pass
