OIL PIPELINE FILING
SPECIAL PERMISSION REQUESTED

Kimberly D. Bose, Secretary
Federal Energy Regulatory Commission
888 First Street, N.E., Room 1-A
Washington, D.C. 20426

Re: ConocoPhillips Transportation Alaska Inc. FERC No. 21.2.0

Dear Ms. Bose:

ConocoPhillips Transportation Alaska Inc. ("CPTAI") submits FERC No. 21.2.0 to be effective February 2, 2011. This tariff filing is issued to comply with the orders issued by the Federal Energy Regulatory Commission ("Commission") in *Trans Alaska Pipeline System*, 113 FERC ¶ 61,062 (2005) (Opinion No. 481); 114 FERC ¶ 61,323 (2006) (Opinion No. 481-A); 115 FERC ¶ 61,287 (2006) (Opinion No. 481-B), and with the orders issued by the Regulatory Commission of Alaska ("RCA") in *In re Formal Complaint of Tesoro Alaska Petroleum Co.*, P-89-1(104)/P-89-2(98)/P-94-4(37)/P96-6(24)/P-98-9(16)/P-99-12(19) (2005); P-89-1(109)/P89-2(103)/P-94-4(42)/P-96-6(29)/P98-9(21)/P-99-12(24) (2006); P-89-1(111)/P-89-2(105)/P-94-4(44)/P-96-6(31)/P-98-9(23)/P-99-12(26) (2006).

The purpose of the filing is three-fold. First, the filing submits Attachments 1-5 to the Quality Bank Tariff of CPTAI. These attachments had previously been part of CPTAI's Quality Bank Tariff, but they were inadvertently not included in CPTAI's baseline Quality Bank tariff filing on December 16, 2010. CPTAI is now resubmitting them. The attachments provide examples of how certain Quality Bank calculations are made and they also contain reference prices for use in certain Quality Bank calculations.

The second purpose of this filing is to ensure that the adjustments to the reference prices for Light Distillate, Heavy Distillate and Resid in Attachment 2 are correct. Section III.G.6 of the Quality Bank tariff requires that these reference prices be calculated for the year beginning February 1, 2011 in accordance with the method prescribed in Item III.G.6. A table showing the calculation of these values is attached to this transmittal letter as Exhibit A.

The third purpose of this filing is to ensure that the coefficients used in the formula to calculate the Naphtha component on the West Coast are correct. These coefficients, which are shown on Attachment 2 page 3, are calculated using a regression analysis of prices for gasoline, jet fuel, and naphtha on the Gulf Coast. The result of the regression analysis used to derive the coefficients for the period February 2011 through January 2012 along with the data for the 10 year period 2001-2010 is shown in Exhibit B to this transmittal letter.

Pursuant to Section 6(3) of the Interstate Commerce Act and 18 C.F.R. § 341.14, CPTAI requests special permission for the enclosed tariff to be effective on February 1, 2011, which is three days' notice. As noted above, this tariff is filed to comply with the orders of this Commission and the RCA and Item III.G.6. of CPTAI's presently effective Quality Bank Methodology tariff. Moreover, the data necessary to calculate the adjustments (from the January *Oil & Gas Journal*) is not available in time to make the required tariff filing more than 30 days prior to February 1, 2011. Because the Quality Bank adjustments are calculated on a monthly basis, it is important that the tariff revisions become effective on February 1, 2011.

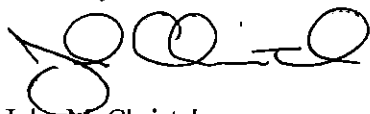

CPTAI requests that any protests or complaints, which in any way affect these tariff publications, be transmitted concurrent with their filing to the following persons at the contact information shown below:

Steven H. Brose
Steven Reed
Steptoe & Johnson LP
